

Welcome to UbiCollaborate 2025

We're delighted to have you join us for our **4th annual event**, bringing together leaders and innovators shaping the future of parking and mobility.

This year's theme explores how transformation happens when digital platforms and human partnerships align.

Throughout the day, you'll hear inspiring stories, and forward-thinking ideas from **improving hospital operations and embracing AI-driven marketing to remarkable stories of resilience and human achievement**. Each session highlights the power of collaboration to drive meaningful progress.

As technology continue to reshape how we move and live, UbiCollaborate 2025 celebrates the people and partnerships leading this change.

We hope you have a great day and don't forget to RSVP your spot for #UC25.

All the best,
The UbiPark Team
